

SELLER ONBOARDING GUIDE

FOR MANUFACTURERS
Bharat Jodo

Let's get your manufacturing business live on Apni Factory.

Please keep the following information and documents ready after speaking with our Business Development Associate.

INFORMATION / DOCUMENT	WHAT TO SHARE	WHY WE NEED IT
Company Details	Company / firm name, business address, manufacturing location and business constitution.	Create your official manufacturer profile with accurate business information.
GST Details	GST Certificate / GSTIN.	Verify the business and maintain correct tax and business records.
MSME / Udyam Certificate	Valid MSME / Udyam Registration Certificate, wherever applicable.	Verify MSME credentials and strengthen your business profile.
Contact Details	Authorised contact person's name and mobile number.	Enable communication regarding enquiries, orders and coordination.
WhatsApp Number	Active business WhatsApp number.	Enable quick communication and important order-related updates.
Email ID	Active email ID.	For formal communication, documents and account/order information.
Bank Details	Bank account details / cancelled cheque.	Required for fund transfers and payment settlement; verified details help reduce payment errors and fraud.
Minimum Dispatch Order Value	Minimum total B2B order value required for dispatch — e.g. ₹5,000 / ₹8,000 / ₹10,000.	Defines the minimum order value a buyer must reach before your order can be dispatched.
Brands	Names of brands manufactured / owned by you.	List products under the correct brand.
Trademark Details	Trademark registration/certificate for registered brands, wherever applicable.	Supports brand safety and authenticity. If a brand is not registered/verified, products may still be listed under an Unregistered Brand category.
Product Categories	Categories in which you manufacture products.	Help buyers discover your products through the right categories and filters.
Product List	Complete list of products you want to list.	Create your product catalogue.
Product Images	Clear, good-quality images of each product.	Help buyers understand and evaluate products before ordering.
Price List	Current manufacturer / wholesale price list.	List products with correct pricing and let buyers select products according to their requirements.
Product Specifications	Size, material, pack size, variants, colours, grades, etc., wherever applicable.	Provide clear product information and reduce confusion while ordering.

NOT REQUIRED FOR ONBOARDING: Factory photographs, factory videos and product videos.

HOW B2B ORDERS & PAYMENTS WORK

A simple flow from product selection to seller payment.

01	BUYER SELECTS	Buyer selects products from the listed categories according to their requirement.
02	BUYER PAYS UPFRONT	The buyer makes the payment upfront for the order.
03	SELLER PROCESSES	Seller prepares the B2B box/order as per confirmed products, quantity and pricing.
04	INVOICE UPLOAD	Seller generates the invoice and uploads the invoice + required order details through the Seller Portal.
05	21-DAY CYCLE	The 21-day payment cycle starts from the date the seller uploads the invoice and required order details through the Seller Portal.

PAYMENT IN ONE GLANCE

BUYER PAYMENT	SELLER INVOICE	21-DAY SETTLEMENT
Buyer pays upfront for the order.	Seller generates the invoice and uploads required details through the Seller Portal.	The 21-day cycle begins from the invoice/details upload date.

LOGISTICS

Buyer preference The buyer may suggest their preferred transporter / logistics arrangement.	If buyer does not provide transport details The seller can suggest a known / reliable transport option available in their city.
--	--

POWERED BY PayU	Secure online payment collection is powered by PayU payment gateway.
